About Us

Flaveas Global Export is a leading export business that specializes in providing high-quality products to customers around the world. With a strong focus on customer satisfaction and reliability, we strive to deliver the best products and services to our clients.

Our team of experienced professionals is dedicated to ensuring the success of our clients, from start to finish. We work closely with our suppliers to source only the best products, and we maintain strict quality control standards to guarantee the excellence of our offerings.

At Flaveas Global Export, we believe in building long-lasting relationships with our clients based on trust, transparency, and mutual respect. We are committed to meeting the unique needs of each customer and providing personalized solutions to help them achieve their goals.

Whether you are looking for a reliable partner to export your products or seeking high-quality goods to import, our company is here to help. Contact us today to learn more about how we can assist you in growing your business and expanding your reach in the global marketplace.

Mission

Building lasting client relationships requires consistently delivering exceptional value while fostering an environment of trust and respect. By prioritizing open communication, understanding client needs, and exceeding expectations, businesses can create meaningful connections that encourage loyalty and mutual success.

Establishing a foundation of integrity, transparency, and responsiveness will enhance stakeholder satisfaction and drive long-term partnerships.

Vision

To achieve our vision of being the benchmark in the export-import industries, we will prioritize integrity, uphold ethical business practices, and consistently deliver high-quality services that meet the needs of our clients. By fostering a culture of transparency and accountability among our team, we aim to establish trust and build long-lasting relationships, ultimately setting a standard for excellence in our sector.

Yubi Fit Gold

Darjeeling Tea is a premium variety of black tea grown in the Darjeeling district of West Bengal, India. Known as the "Champagne of Teas," it is prized for its unique flavor profile, characterized by a delicate muscatel aroma, floral notes, and a hint of astringency. The tea's distinctive taste comes from the region's high-altitude plantations, cool climate, and rich soil.

Yubi Fit Assam Tea

Export quality green tea is a premium-grade tea made from young, tender tea leaves carefully selected for their superior taste, freshness, and health benefits. The tea is processed using minimal oxidation to preserve its natural antioxidants, resulting in a refreshing and nutritious beverage. Its flavor profile typically includes grassy, vegetal, and mildly sweet notes, complemented by a pleasant astringency.

Darjeeling tea Leaf N Lips Black

Darjeeling Tea is a premium variety of black tea grown in the Darjeeling district of West Bengal, India. Known as the "Champagne of Teas," it is prized for its unique flavor profile, characterized by a delicate muscatel aroma, floral notes, and a hint of astringency. The tea's distinctive taste comes from the region's high-altitude plantations, cool climate, and rich soil.

Green Tea

Export quality green tea is a premium-grade tea made from young, tender tea leaves carefully selected for their superior taste, freshness, and health benefits. The tea is processed using minimal oxidation to preserve its natural antioxidants, resulting in a refreshing and nutritious beverage. Its flavor profile typically includes grassy, vegetal, and mildly sweet notes, complemented by a pleasant astringency.

Black Tea

Black tea contains 2% to 4% caffeine, which affects thinking and alertness. It also contains antioxidants and other substances that might help protect the heart and blood vessels. It has different properties than green tea, which is made from the fresh leaves of the same plant. People use black tea for improving mental alertness. It is also used for headache, both low and high blood pressure, preventing Parkinson disease, depression, dementia, stroke, and many other conditions.

Other Products

Explore our quality products

Coffee

Coffee is a popular drink made from the roasted beans of *Coffea* fruits. It contains caffeine and chlorogenic acid. The caffeine in coffee works by stimulating the central nervous system (CNS), heart, and muscles. Chlorogenic acid might affect blood vessels and how the body handles blood sugar and metabolism. People most commonly drink coffee to increase mental alertness. Coffee is also used for diabetes, cancer, heart disease, high blood pressure, dementia, and many other conditions.

Alphonso Mango

Alphonso mangoes are rich in vitamin A and flavonoids, which are important for vision. Calories in 1 Alphonso mango are in the range of daily calorie requirements. A serving of hapus, typically one cup (165 grams), contains approximately 100 calories. Mangoes are also a good source of vitamins and minerals, including vitamin C, A, and potassium. Mangoes are rich in folate, which is important for healthy cell division and DNA duplication.

Drumstick

Drumstick is a plant native to India and other countries. It contains proteins, vitamins, and minerals, making it useful to fight malnutrition. Drumstick is an important food source in some parts of the world. It can be grown cheaply and easily, and retains much of its nutritional value when dried. As an antioxidant, it seems to help protect cells from damage. Drumstick might also help decrease inflammation and reduce pain. Drumstick is used for asthma, diabetes, breast-feeding, and many other purposes.

Cumin Seed Powder

Cumin seeds are commonly used as a spice in foods. As medicine, cumin essential oil has most often been used by adults in doses of 25-75 mg by mouth daily for up to 6 months. Cumin powder has most often been used in doses of 1.5-3 grams by mouth daily for up to 6 months. People use cumin for abnormal levels of cholesterol or blood fats, obesity, diarrhea, and many other conditions, but there is no good scientific evidence to support these uses.
